OFFICIAL NOTICE

Prohibition of Unauthorized Admission Activities

Dear Students,

This is to inform all students that the Institute has received information that some students are involved in admission-related activities by offering unauthorized, misleading, or fake fee packages to prospective students.

This serves as a final warning that any student found to be directly or indirectly involved in such activities, **including approaching teachers or coordinators regarding admission-related matters**, or misleading students about the admission process, will face strict disciplinary action by the Institute.

You have come to this Institute to pursue your medical education and become a doctor—not to act as an admission agent. Therefore, all students are advised to focus on their studies and refrain from participating in any unauthorized admission-related activities.

Kindly note that if any fraudulent or misleading activities are reported or identified, the Institute will take appropriate disciplinary action. If necessary, the matter may also be reported to the concerned authorities, **including the Embassy of India Tashkent.**

This is the final warning from the Institute. Any student found repeating such activities in the future will face strict disciplinary action without further notice.

We expect every student to understand the seriousness of this matter, concentrate on their academic responsibilities, and maintain the reputation and integrity of the Institute.

By Order of the Institute.

Rektor

A. Sidikov
